Re: Carolina Water Service, Inc.: Notice of Restrictions of the Use of Water Service.

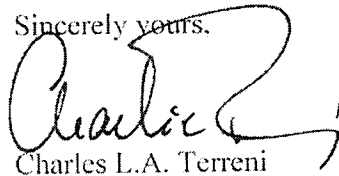

Dear Ms. Boyd:

Pursuant to S.C. Code of Regulations Section 103-772, I am writing to inform the Commission and the Office of Regulatory Staff that Carolina Water Service, Inc. must temporarily restrict the use of potable water for lawn and landscaping irrigation in the Forty Love Point and Indian Fork subdivisions. I have enclosed copies of a written notice that will be delivered to the affected customers.

Please let me know if I can provide any additional information regarding this issue.

With best wishes, I am,

Sincerely yours,

Charles L.A. Terreni

REG. STAFF / DUKES

To the Homeowners of Forty Love Point & Indian Fork:

We regret to inform you that Carolina Water Service must temporarily implement an irrigation restriction in the Forty Love Point and Indian Fork subdivisions until further notice.

The new well drilled last summer that was expected to provide the additional source water has proven not to be reliable and was not placed into service as we had expected.

For the time being, in order to avoid having irrigation demand lower the pressure of the system too much during the morning and afternoon peak demand hours, we ask that you abide by the limitations outlined below.

Carolina Water Service is asking you to conserve water as follows:

Restrictions on Use of Outside Water:

- 1. Outdoor irrigation limited to a maximum of two days per week**
 - a. Premises with even addresses – Tuesday, Thursday, or Saturday.**
 - b. Premises with odd addresses – Wednesday, Friday, or Sunday.**
- 2. No watering is allowed on Monday to give the water system a chance to recharge.**
- 3. No watering is to occur between the hours of 5:00 am and 9:00 am or between 3:00 pm and 8:00 pm.**

The help of the neighborhood in limiting lawn irrigation, so as not to coincide or conflict with peak demand hours, is greatly appreciated. Please follow these watering restrictions so as to avoid further restrictions which could include prohibiting all outdoor water usage.

Carolina Water Service has been seeking suitable property in a separate location in order to drill another well. We are close to coming to terms with the purchase of a property for a new well installation. Once the new well source is in service and running, the system should return to satisfactory and consistent pressure throughout the day.

We greatly appreciate your cooperation during this time.
